FYI, Lou, as you had mentioned you were interested in keeping abreast of these evolving decisions.

**Subject:** Formaldehyde Overview

Hi Tina and David,

As requested, we are attaching the Formaldehyde Overview Document with the revisions to the cancer dose-response section that were discussed (i.e., IUR based on NPC with discussions on ML). Also we edited Table 2, the summary of the conclusions and unit risk estimates for cancer, to include footnotes that describe the context for the confidence conclusions for the cancer types with high confidence.

Previously you had indicated that you wanted to send this to Bob and Bruce.

BTW, we are still on track for finishing the main document by Nov. 3<sup>rd</sup> unless other changes need to be made.

Regards, Barbara and Andrew
